GLACIER EXPRESS ZERMATT - ST. MORITZ

An 8-hour railway journey across 291 bridges, through 91 tunnels and across the Oberalp Pass at 2'033 metres. The Glacier Express travels a picturesque route between the Graubünden holiday region, the sunny Valais region with its glacier landscape, and the regions of the South. Travel in comfort through the natural beauty of a landscape rich in ancient mountain forests, peaceful alpine meadows, rushing mountain streams and mountain valleys.

It was on June 25, 1930 that the Glacier Express commenced summer operations from Zermatt to St.Moritz, but it was to take more than 50 years before the trains were able to also cross the impassable Furka alpine route in winter. Construction work on the Furka tunnel between Oberwald and Realp began in 1973 and services could finally start on 26 June 1982, allowing the Glacier Express to run year-round.
