BERNINA EXPRESS

Scenic Train of Switzerland

One of the most spectacular ways to cross the Alps: the Bernina Express from Chur / Davos / St. Moritz - Valposchiavo - Tirano links up regions with different languages and cultures. This is not a rack railway and the train winds its way gently through splendid scenery.

The journey continues on through picturesque Valtellina and past Lake Como to Lugano with the modern Bernina Express Bus. One of the highlights is the panoramic journey through the UNESCO World Heritage RhB. On the highest railway across the Alps, the Bernina Express climbs up to the glistening glaciers before descending to the palms of Italy far below. This rail link between Northern and Southern Europe builds bridges between regions with different languages and cultures.

The railway is unique, blending ideally with the alpine landscapes around the Albula and Bernina Passes. The train negotiates the 55 tunnels, 196 bridges. At the highest point on the RhB, 2,253 metres above sea level, you will find the Ospizio Bernina. Here, visitors can delight in the cultural and natural surroundings and enjoy the Alps at their most impressive. The railway line from Thusis - Valposchiavo - Tirano has UNESCO World Heritage status.
