#### THE GORNERGRAT - OBSERVATION PLATFORM

The Gornergrat (3,089 m) is a mountain panorama with a glorious view of the Matterhorn. With its observation platform accessible all year, the Gornergrat, has been one of Switzerland's top excursion destinations since 1898. The Gornergrat Bahn was the world's first fully electrified cog-railway. Today it is a modern, eco-friendly railway, equipped with a regenerative braking system that generates electricity on the descent and so saves energy.

#### ROCHER-DE-NAYES

Rochers de Naye is located well above the high pastures. Up high, you can see the railway line if you look up at the mountain from the lakeside at Montreux. The cog wheel railway will take you there in less than an hour and you will be able to see Lake Geneva from the rocky terrace on the summit.

The train departs every hour from Montreux Station. It climbs through the meadows and fields to Glion and Caux where proud, elegant hotels dating from the Belle Époque period, sit above the lake.
