## BERLIN

For most of the latter part of the 20th century, Berlin has stood as a symbol of the division between East and West, split by the infamous fortified wall erected to separate the socialist sector from the democratic district. When the Berlin Wall was pulled down in 1990 the city discovered that it suddenly had two of everything, most notably two very distinct societies separated both socially and economically. The past decade has seen Berlin embracing unification and rebuilding itself as a modern European capital.

## CHARLOTTENBURG PALACE PACKAGES
